A Manney Plan.

An exchange speaks of a man who, it is said, always pays for his local paper in advance. As a result he has never been sick a day in his life, never had any the toothache; his corns on his toes, or the toethache; his potatoes never rot, his oats never rust, the weasel never kills his chickens, the frost nover kills his beans, his babies never cry at night and his wife nover scolds.

A Crack Shot.

Deputy Sheriff B. R. Moss informs us that while riding along the reads in his travels through the county the other day he ran across a large rattlesnake coiled up in the read. He says the snake as coiled would almost fill a half-bushel measure. He shot the snake while coiled, and afterwards discovered that the one bullet had divided it into this traverse. bullet had divided it into thirteen pieces. If Deputy Moss does not volunteer for

service as a sharpshooter he should be

conscripted. Mon. Bl. E. Donaldson.

Hon. M. L. Donaldson, of Greenville, spent last Friday in Walhalla, and was greeted by many friends. He is a cultured, broad-minded gentleman, and a potent factor in the polities of our State. It is said that he will be a candidate for Congress from the Fourth Congressional Congress from the Fourth Congressional District in the approaching campaign. If so, he will be a live man to handle on the hustings. He enjoys the confidence of the people in a high degree. Not only the Fourth District, but the whole State would find in him an able, clean and nfluential representative, should he given a seat in Congress.

The Largest Run Wet. During the month of May the Wal-halla Cotton Mills turned out 143,000 yards of sheeting, for which ready sale is found. The greatest amount made in any one month before was 129,000 yards. The new Superintendent, Mr. George H. Peckham, has made a great improvement also in the finish of the cloth. The mill is in fine fix, and doing better work than ever before. Mr. Peckham understands his business, and has all the machinery doing its best work. He has rented the new residence of Mr. C. W.

About four o'clock Wednesday morning the alarm of fire was raised, and the colored school house was found to be on fire. It soon burned to the ground. The origin of the fire is supposed to have been incendiary. School has not been taught there for sometime, and no one is cnown to have been in there the day be fore. Some parties are suspicioned, but no arrests have yet been made. This is the second time in the last six years the school house of the colored people has been burned. It is remarkable that two houses should be burned down on the same spot in so short a time, and that both burnings should be of supposed incendiary origin.

"Pat" has many friends in year. The catalogue embraces seventy Walhalla, who were delighted to see him eight pages and contains much valuable information as to curriculum, terms of admission, expenses, &c. The college buildings are also finely illustrated and the catalogue presents a handsome ap-pearance for this time-honored institu-tion. also a member of the class. A Mistake Corrected.

In the article on Seneca, which appeared last week, a slight mistake was made in respect to Mr. W. A. Holland, a salesman in store of M. W. Coleman & Co. We were mistaken in saying he is a son of Mr. W. A. Holland, of Seneca. His father is Dr. S. N. Holland, of Hart county, Georgia, a graduate of Wofford College, Spartanburg, S. C.; also, of the Charleston Medical College. Dr. Holland is a prominent physician, practicing at Parker's Store, Ga. We take pleasure in making the correction, also in welcom ing Mr. W. A. Holland as another recruit from the Empire State to the ranks of Seneca's substantial business men. Hav-ing come thus early he can look forward to a future of great success. May he abide in Seneca and achieve even greater things for himself than any of his predecessors.

Forty Wears in Bailroad Mervice. Capt. Wm. G. Smith, passenger con luctor on the Columbia

ductor on the Columbia and Greenville Railroad, was on a brief visit to his daughter, Mrs. N. L. Fant, and family, at Walhalla, this week. The infirmities of age and the constant and exacting duties of railroad life are telling on this faithful and popular railroad servant and admonish him to seek a more quiet and less exacting life. He is therefore making arrangements it is said at no distant day rangements, it is said, at no distant day to retire from railroad employment

which he has been following uninter-ruptedly for forty years. He has a beau-tiful home in West Union where he expects to retire and spend the remaining years of his life in the enjoyment of the peaceful pursuits of home life, sur-rounded by the blessings of quietness and freed from the dangers and toll incident to railroad service. We shall be delighted to have Capt. Smith and family to become abiding citizens among us. No more faithful railroad conductor ever ran a train than Capt, "Billy" Smith. He number his friends by the thousands.

A Brave Man in Walhalla. The COURIER job printing office, of Walhalla, has made a most grievous mistake in the get-up of the programme of the first convention of women's clubs in South Carolina, to be held on June 15th and 16th at Seneca. It is to be purely a woman's affair, and women only purely a woman's affair, and women only are to speak; but, in spite of knowing all this, the Courter job man has the bare face bravery and the check to put on the back of the programme a small sized figure of a man in the attitude of a speaker. The Courter man owes an apology to somebody, and he had better get a move on him and make it. There is one man down as a speaker. is one man down as a speaker, Gen. Leroy F. Youmans, of Columbia, and perhaps the COURIER man means this as a picture of the General. If he does, he had better hunt for a hole in the wall

He was also expecting volunteers from other points.

The dignity and worth of citizenship. The dignity and worth of man were treated in a happy manner, the points specially stressed being the proper respect for self in the first instance and the proper respect for others. His ideas were plainly and forcibly put, and his address was highly enjoyed.

A Farmers' Picnic.

There will be a farmers' picnic at Dickson's famous chalybeate springs, near Westminster, S. C., on Saturday, June the 11th, 1898, to which all farmers, and all others directly or indirectly interested in the advancement of the agricultural and material resources of our county, are invited. The object of this meeting will be to organize auxiliary experiment clubs in this county to act in concert with the experiment station at Clemson College. These experiments are to be made by individual farmers, reports of which experiments are to be sent to the head of the description. of the department at Clemson College, there to be summarized and tabulated in such form as may be available to any one who may be interested in the wellbeing who may be interested in the wellbeing of our agricultural people and the resources of our county. Agriculture is yet in its infancy in this county. There is no good reason why Ocenee county and her people should not forge themselves to the front in the broad field of industry. Our climate is equaled by few, surpassed by none. We have every variety of soil, very superior and almost numberless varieties of timber, fine specimens of oar of every kind, granite of timens of oar of every kind, granite of the hardest species, susceptible of the finest finish, marble of good quality, in fact, our resources are as varied and as enticing as our climate. Our lands are cheap, our warter-powers very desirable and easy of access. This invitation is extended to all, and it is expected that there will be a general congregation of farmers and their wives at this time. If our county ever develops its possibilities, our own people must make the demand n person upon nature's rich stores hidden in our fertile soils, dense forests and hitherto unexplored quarries. Let us make this section of the Piedmont belt make this section of blossom as the rose.

Quite a plucky thing of the Seneca baseball nine was their decision to play the Piedmont team, which they did on Saturday. The Seneca team had only seven men to start on, and were unable to secure the services of two players by whom they hoped to be joined at Pelzer, so had to trust to chance to make out the required number. On the other hand, the Piedmont team is composed of professional players, and was of course victorious. The Seneca team took the defeat quite gracefully. The game was played at Piedmont,
